## the world moves with us

Chess Moving Australia is the proud amalgamation of several leading Australian owned moving companies, with industry experience dating back to 1887.

The result of this amalgamation is a powerful and dynamic organisation with a reputation for excellence across the nation.

Globally, Chess Moving are shareholder members of UniGroup Worldwide UTS, one of the world's largest relocation companies, with an annual turnover in excess of \$2.0 billion US, offering an extensive moving service to multinational and corporate businesses through more than 1350 branches in over 130 countries worldwide.

Nationally, Chess Moving is located in every Australian capital city and regional centres covering 98% of the Australian population.

Our services include regional, national and international household moving and storage for private, corporate and government clients.

From your very first contact with Chess Moving, you'll discover that we have the

ability to combine the strengths of a national business with the expertise of local management.

Chess Moving has proven specialists and experienced staff at each location who will ensure that every move, however small, large or complex, is carried out professionally on time every time.

# confidence

## a question of confidence

What do you look for when deciding on a removalist, whether it be across town, interstate or overseas? Well, it's a question of confidence; confidence to know that you have chosen the best moving company for your family; a company you can trust with your treasures, with high standards of personalised care, and the resources, the expertise and the international relationships to control everything, door to door.

You need a company that is able to give you the one thing you need most at this time – advice; advice on what to take and how to prepare, packing methods, timing, what to expect at your destination, insurance, customs and much more.

Chess Moving will give you that confidence. Chess Moving staff pride themselves on their ability to move your treasures safely. Whichever Chess Moving office you use you will find courteous staff, keen to help in any way they can.

moving the treasures of your world

# the secret of success...

## Careful planning

Careful planning is the secret to any successful move – there can be no compromise. Our knowledgeable staff can help you with planning, preparation, scheduling and insurance. We will provide you with an obligation-free assessment of your needs and a removal proposal for your move, be it within Australia or overseas.

No matter where you are moving from or to, it is important to select a professional moving company, one that will help you throughout the moving process, and one that is a member of Australian and international industry associations.

At Chess Moving we will provide you with a firm and fully inclusive written quote. We will supply wrapping materials, and cartons of varying styles & sizes, into which we will pack your belongings – or some for those small personal items you may wish to pack yourself.

With the assistance of our tracking system we are able to tell you at anytime where your goods are, and that they are in the safe hands of our carefully selected partners.

With overseas moves, our staff will provide you with a complete inventory of all items being shipped. Only when you are completely satisfied will the shipment leave your home and begin its journey.

Without professional help, all sorts of problems can occur, such as damaged walls, broken glass and strained muscles. Chess Moving can minimise the fear of those damages by providing you with the correct type of insurance for that local or overseas move. We can also take away the fear of the strained muscles by employing professionally trained packers and movers, and by using the correct equipment and vehicles.

You can trust Chess Moving to move your treasures carefully and professionally.

Remember – **The World Moves With Us.**

# for your convenience...

## packing and preparing

If you've got something to move, Chess Moving will have the packing cartons or materials specially designed for it. If not, we can custom-make crates for those special items that may need that extra care.

# any destination...

## shipping and air freight

Our export volume allows Chess Moving access to the most reliable shipping and air services available at the most competitive rates, whatever your destination. Chess Moving's experienced staff will choose the most appropriate route for your shipment to match your requirements.

Modern container ships provide a first-class service, with a scheduled timetable that allows you to plan ahead with confidence. Close links with shipping lines throughout the world enables Chess Moving to track consignments every step of the way and to keep you informed of progress.

Chess Moving staff are the experts when it comes to coordinating your international move. Air freight services can be arranged to move all items, or simply the part of your shipment you will need immediately upon arrival.

When your shipment arrives at its destination, it will require careful and efficient handling to complete your move. Our destination partner will handle the import documentation, customs clearance and delivery for you. Their delivery staff will unpack and unwrap every item, place the furniture in your new home as you require, and remove the used packing materials, whilst exercising the same care and attention demonstrated by Chess Moving staff in Australia.

It is important you know that Chess Moving's international partner, UniGroup Worldwide UTS, was chosen because of their proven performance and excellent reputation. Our international partners are all highly experienced and professional moving companies, market leaders in their own country and guaranteed to perform to your expectations.

If your new home is not ready, or you wish to spend some time exploring locations and new homes before making a final decision, Chess Moving will arrange for all or part of your shipment to be safely stored until you are ready to have it delivered.

# how else can we help?

## insurance

Even with our very impressive record of care and attention, unforeseen accidents beyond our control can happen during transit. Fortunately, our excellent record means we can offer you insurance at very competitive rates. Ask your Chess Moving consultant about the options available.

## secure storage

Chess Moving provides you with a range of secure storage solutions at both uplift and destination. Our 'containerised' storage system provides added security and protection for your valuables, long or short term.

## valet service

Let our valet service take care of everything. We'll hang your clothes, place your crockery, put the cutlery in the drawers for you and arrange your new home for a warm welcome.

## home cleaning

When you're vacating your house on moving day, the last thing you want to be concerned with is cleaning.

We can help by organising all cleaning tasks.

We can also help ensure the perfect arrival by having your new home thoroughly prepared before your furniture and belongings are delivered.

## pet transportation

Because they're extra sensitive to changes, pets can be a problem when moving. At Chess Moving we can advise you on professional pet care services to transport them safely to your new home.

## car transportation

Cars, boats, caravans... we move them all. If you want to avoid the extra stress of having to work out the logistics of relocating additional cars and your boat or caravan, leave it to the experts. We can provide a range of cost-effective solutions.
