# WHY INSURANCE IS A NEED?

## Moving can be high risk.

Despite 560 years combined experience and absolute care by some of the best trained professional removalists in the industry, the reality is that your belongings are at a much greater risk of loss or damage while being moved.

There are four main reasons for taking removals transit and storage insurance.

1

### **Most belongings are not made to be moved.**

Whilst Chess Moving uses the highest standards of care and skill in making sure that your belongings are properly handled and protected, there is always the risk of an accident or influences outside our control which may cause damage or even loss of your belongings. The lighter construction of furniture these days is making it harder and harder for removalists to relocate furniture – even more now with the rise in popularity of flatpacked furniture, which is not designed to be moved in its assembled state.

Chess Moving takes pride and responsibility in offering you the protection you need. We offer you our skills and expertise in performing our professional services to minimize risk, and in addition we offer you the peace of mind and assurance of protection against accidents and forces of nature outside our control.

2

### **Contents insurance is unlikely to cover your belongings.**

Most, if not all, home furnishings and belongings are not designed or built to be moved, and are therefore at a much higher risk of loss or damage when they are.

3

### **Removalists' insurance only covers their own legal liability.**

Most prominent removal companies have in place commercial Carriers Liability and Public Liability insurance policies:

- This protects the removal company against their legal liability to pay compensation for loss or damage in the unlikely event that they are deemed to be negligent.
- Compensation under the above policies is limited to the indemnity value of the item(s) which takes into consideration the replacement value less an allowance for age and condition, wear and tear, and depreciation (not replacement value).
- If the removal company is deemed not to be negligent for circumstances beyond their control, or if the incident is caused by the act of a third party, the removalist's own policy does not cover these incidents. Any claim for loss or damage will need to be pursued directly against the negligent party or against your own insurer.

4

### **For financial Security and peace of mind.**

To ensure your peace of mind against unforeseen circumstances, we can arrange Transit Insurance Cover for you to minimise your risk and the exposure you can be subject to in the unfortunate event of an accident or major incident occurring.

## KNOW THE LAW OF THE SEA

All goods shipped by sea are subject to the law of **General Average**, a principle of maritime law where, in the event of an emergency voluntary sacrifice is made to safeguard the vessel, cargo or crew from a common peril (e.g. jettison of cargo to extinguish a fire), or expenses incurred otherwise, the loss is shared proportionately by all parties with a financial interest in the voyage. In other words, if there is a

loss on a ship that you have your belongings stored on, whether your belongings are affected or not, if you are not specifically insured against General Average you may incur significant expense to compensate those who were affected. This is why all Chess Moving Insurance includes coverage for General Average & Salvage.

**Replacement Cost** ('new for old'). You're covered for the full replacement cost for any items totally lost or destroyed, or reasonable cost of repairs or restoration if damaged. (Motor vehicles, motor bikes, caravans, boats and trailers can only be insured for their Market Value.) For items declared in the 'Valuables' clause and items declared under 'Option B: Specified Items Method', the sum insured is limited to the declared value nominated by you on your Insurance Declaration.

## 4 DECIDE ON YOUR INSURED VALUE

**OPTION A Valuation: Volume Method**

**A** **Volume Method** derives a declared value of your belongings by multiplying a per cubic metre (m<sup>3</sup>) valuation rate by the total cubic metre volume of your consignment.

To arrive at your insured value, simply multiply the volume of your consignment (per your removals expert), by the minimum value of A\$2,500/m<sup>3</sup> within Australia, or A\$3,500/m<sup>3</sup> for overseas.

OR

**OPTION B Valuation: Specified Items Method**

**B** **Specified Items Method** derives a declared value of your belongings by the sum total of your specified value of each of your items.

To arrive at your insured value, complete the detailed Specified Items Method form by nominating the actual Replacement Cost of your items.

### IMPORTANT NOTES:

- Carefully consider the appropriate basis of valuation method ('Option A' or 'Option B'), as this will be used in the event of a claim, and the amount nominated by you is the maximum value payable under the policy.
- Carefully consider whether the minimum cubic metre values specified in 'Option A' are sufficient for your needs. If the nominated amounts are insufficient, please amend with the value that suits your needs and then calculate the declared replacement cost of your consignment.
- When moving overseas, allow for any increase in the cost of goods at your country of destination, or any variances in the currency exchange rates.
- In both valuation methods ('Option A' or 'Option B'), you will also need to complete the Valuables Table nominating and valuing any antique, curio, plate, precious object, work of art, collection of items, fur, piece of precision equipment or similar, or professionally packed carton by Chess Moving where the value exceeds A\$1,000. This amount will then be added to the total insured value; otherwise, if not specified, the item will be limited to a maximum value of A\$1,000.
- In 'Option B', items that are not declared are not insured.

## 3 DECIDE ON YOUR INSURED VALUE

### OPTION Valuation: Volume Method

**A**

**Volume Method** derives a declared value of your belongings by multiplying a per cubic metre (m<sup>3</sup>) valuation rate by the total cubic metre volume of your consignment.

To arrive at your insured value, simply multiply the volume of your consignment (per your removals expert), by the minimum value of A\$2,500/m<sup>3</sup> within Australia, or A\$3,500/m<sup>3</sup> for overseas.

OR

### OPTION Valuation: Specified Items Method

**B**

To arrive at your insured value, complete the detailed Specified Items Method form by nominating the actual Replacement Cost of your items.

### IMPORTANT NOTES:

- Carefully consider the appropriate basis of valuation method ('Option A' or 'Option B'), as this will be used in the event of a claim, and the amount nominated by you is the maximum value payable under the policy.
- Carefully consider whether the minimum cubic metre values specified in 'Option A' are sufficient for your needs. If the nominated amounts are insufficient, please amend with the value that suits your needs and then calculate the declared replacement cost of your consignment.
- When moving overseas, allow for any increase in the cost of goods at your country of destination, or any variances in the currency exchange rates.
- In both valuation methods ('Option A' or 'Option B'), you will also need to complete the Valuables Table nominating and valuing any antique, curio, plate, precious object, work of art, collection of items, fur, piece of precision equipment or similar, or professionally packed carton by Chess Moving where the value exceeds A\$1,000. This amount will then be added to the total insured value; otherwise, if not specified, the item will be limited to a maximum value of A\$1,000.
